

# International Diagnostic Course Davos Excellence in Teaching

## **The 3<sup>rd</sup> IDKD Hong Kong:**

We are pleased to announce the 3<sup>rd</sup> IDKD to be held in Hong Kong on May 9<sup>th</sup>-12<sup>th</sup> 2013 on Diseases of the Chest and Heart, to be taught by yet another world renowned international faculty who are leading experts in the field. After a successful 1<sup>st</sup> and 2<sup>nd</sup> IDKD in Hong Kong with more than 300 participants from about 30 nations, we have obtained resounding support from the organization to hold the 3<sup>rd</sup> IDKD in Hong Kong. Please find the preliminary announcement in the attached for your perusal and dissemination to your staff and colleagues. There will be 14 workshops and several highlight lectures on imaging of important diseases in the chest and heart. Tentatively, two tracks; short and long, with the same number of workshops but distributed over 3 or 3 ½ days are planned.

We hope that you will continue to support the IDKD in Hong Kong, and look forward to seeing you at the course.

Sincerely,

Pek-Lan Khong  
Member of Local Board, IDKD  
Professor and Head  
Department of Diagnostic Radiology  
The University of Hong Kong
