

IDKD 2019, Hong Kong and Beijing :

We are pleased to announce the IDKD course 2019 to be held in Hong Kong (May 24-26) and Beijing (May 31-June 2), on Diseases of the Abdomen and Pelvis, to be taught by a world renowned international faculty who are leading experts in the field. As in the recent years, the course offering identical workshops will be delivered in both Hong Kong and Beijing, China. This year, based on participant feedback, we will combine organ systems such that topics in Abdomen and Pelvis will be covered. Please find the announcement in the attached for your perusal and dissemination to your staff and colleagues. There will be 14 workshops and four highlight lectures to be held over 3 days. This case-based refresher course will provide updates and tips and tricks in clinical reporting for Radiology trainees and practicing radiologists. For more information, please visit www.idkd.org

We hope that you will continue to support the IDKD in Asia, and look forward to seeing you at the course.

Sincerely,

A handwritten signature in black ink, appearing to read "Pek-Lan Khong".

Pek-Lan Khong
