

**12<sup>TH</sup> CONGRESS OF THE  
WORLD FEDERATION OF  
NUCLEAR MEDICINE AND BIOLOGY**  
20–24 April 2018 | MELBOURNE, AUSTRALIA

## WFNMB 2018 – Website listing information

**Name:**

12th Congress of the World Federation of Nuclear Medicine and Biology (WFNMB)

**Date:**

20 – 24 April 2018

**Location:**

Melbourne Convention and Exhibition Centre, Melbourne, VIC, Australia

**Event Details:** *(please link the last sentence to the website - [www.wfnmb2018.com](http://www.wfnmb2018.com))*

The 12th Congress of the WFNMB is a premier quadrennial international congress that aim to promote further Global Translation of Molecular Medicine, incorporating the translation of basic laboratory research to clinical practice, establishment of clinical and technical standards, and the translation of molecular medical technology to developing countries for the benefit of patients worldwide.

The cutting edge, multidisciplinary scientific program will cover themes dedicated to nuclear medicine specialists, radiologists, medical imaging specialists (including technologists, radiographers, and radiation therapists), medical imaging trainees, physicists, scientists, nurses, and the broader medical and scientific community.
